

Work Experience Policy

Hopewell School & motorvations@hopewell

Policy Date:	January 2021
Date Ratified by Governors:	February 2021
Next Review:	January 2022

BACKGROUND

Work Experience forms part of our personalised programme for pupils at Key Stage 4.

The programme provides work-based learning opportunities to pupils and aims to build on work related projects through our Vocational centre motorvations@hopewell. As with most other programmes of study, there are good opportunities to integrate other important areas of the curriculum. It is likely that communication and literacy, numeracy and ICT will all be heavily incorporated into any vocational studies and careers work. It is important for pupils in the 14-16 age range to be given the opportunity to discuss and explore in detail the world of work and/or be given the opportunity to experience aspects of this in ways that will make the experiences relevant to them. Lessons planned to deliver this work should, wherever possible, focus on the practical and give pupils a chance to see, hear, do and record work and employment activities first hand and a comprehensive programme of visitors to school and visits to outside workplaces will help to achieve this. Much useful work can be conducted within school and this would normally be the starting point for both looking at careers and the possibility of work experience.

PLACEMENTS

Work experience may take place for a one or two week period or for days or half days over a short agreed period at any time during the school year. During this time pupils will attend a place of employment where they will experience first-hand, but unpaid, the world of work. This will help them to understand:

- Working alongside someone in a work situation
- Learning about equipment used in the workplace
- Following routines and schedules of the working day
- Following instructions in a work situation
- Using tools and equipment in the workplace
- Communicating and interacting with colleagues
- Working independently or as part of a team
- Self-assessment and keeping a record of progress
- Identifying health and safety measures and hazards in the workplace
- The routine of a normal working day or shift
- A working environment outside the classroom
- An unfamiliar situation involving working with people of different backgrounds and the chance to learn new skills and perhaps wear uniform and use equipment and machinery to learn work processes at first hand

Additionally, work experience may give pupils the opportunity to:

- Move towards developing personal skills, qualities and interests;
- Move towards developing the self-confidence required in the wider world
- Make some connections between what pupils can learn at school and the world of work

Employers who offer WEX and the Deputy Head from motorvations@hopewell spend time and take great care in arranging suitable work experience placements. Placements are arranged for individual pupils that are appropriate to their level of skills and independence and a suitable type of support. In return pupils are expected to fit into their working environment and attend for the whole placement.

Part of the process of finding and starting on a placement may involve pupils in:

- Attending a pre-placement interview
- Dressing appropriately for the job
- Being punctual
- Notifying the person in charge if they are unable to attend through illness or other reason Pupils are supported to achieve these tasks

PROCEDURES AND PRACTICE

- The placement will be chosen by the Deputy Head, the work experience partner and in conjunction with the Student.
- All placements are carefully monitored by BEP and DHT, including the Risk Assessment procedures. A briefing is held with the supervisor responsible to outline the particular needs of the student.
- Pupils, parents/carers and teachers are kept informed and encouraged to contribute where possible to the placement.
- Details of employers are kept by the Deputy Head Teacher on a school database.
- Parental approval is required by law for all placements. Parents/carers must sign an acceptance form before commencement of placement.
- Pupils will be briefed on Health and Safety at Work procedures and will be inducted by the Employer on these procedures.
- The student will keep a record of their experiences for recording and debriefing process

The employer will provide an end of placement report and the student will review their progress at the end of the placement with the Deputy Head who also does an end of placement report.

- The DHT and the employer work very closely together to ensure that the duties offered individual pupils are appropriate to their ability and health and safety.

The DHT or an identified member of staff will visit the placement to ensure the employer is adhering to this agreement and not providing any other duties outside of the agreed contract.

- A placement may be extended through agreement by all the parties and if it does not impinge upon the curriculum entitlement of the student.
- The school and the Employer reserve the right to terminate the placement if any pupil is deemed to have behaved in an inappropriate manner or the placement is no longer considered appropriate.
